Dear Colleague,

Re: The Journal of Bone and Joint Surgery

I am delighted to say that the British Volume of the Journal of Bone and Joint Surgery will continue to publish free the Abstracts of your Society's Meetings.

At the Journal of Bone and Joint Surgery, we believe it is very important to encourage all those involved in the practice of orthopaedic surgery to subscribe to the premier orthopaedic Journal.

In an age of specialisation, I appreciate the importance of speciality journals. Nonetheless, across the field of orthopaedics around the world many surgeons believe they should reserve their best work for submission to the JBJS. Within its pages, therefore, is the cream of world orthopaedic research.

If you do not subscribe, can I encourage you to do so. Note that there is a 50% discount for all orthopaedic Trainees. At the bottom of this letter the methods of subscribing are outlined.

I do hope you will join us if you have not done so already.

Yours sincerely,

Professor Robert Dickson, FRCS
Chairman
